YOUR MONEY BELONGS TO YOU

The Canvas Future Fund has several built in features that allow you access to your funds when you need them. Our Waiver of Surrender Charges Rider allows you to access your funds without paying surrender charges in the event you have a qualifying chronic or terminal illness or are confined to a nursing home (subject to the terms of the WSC Rider). In the unfortunate event you pass away during your contract term, the Accumulation Value of your annuity will be paid to your beneficiary. No surrender charges will be assessed and your beneficiary does not need to wait until the end of the contract term to have access to the money. You also have the option to withdraw 10% of the Accumulation Value of your annuity annually without paying surrender charges.

SURRENDER CHARGES

Leaving your money in your contract for the entire contract term means you will receive the best crediting rate we offer. Sometimes unexpected things may happen that cause you to need access to your money. If you choose to withdraw any amount over the Penalty Free Withdrawal amount but less than a full surrender, you will be subject to a surrender charge that is calculate based on the policy year and the rate guarantee period you choose.

Wondering why the surrender charges continue after the initial term is over? At the end of the Initial Guarantee Period, there is a 30-day window of no surrender charges. At this time, you may choose to either withdraw your funds or renew your policy for another term. If you do nothing or choose to renew, the surrender charges will continue as shown above.

WHAT IS ACCUMULATION VALUE?

The Accumulation Value of your Canvas Future Fund is your initial premium plus interest credited less any deductions for prior partial surrenders.

BENEFITS OF TAX DEFERRAL

Tax deferral is one of an annuity's greatest benefits. When you purchase an annuity from Canvas, you will receive the benefit of compounding interest without having to pay federal or state taxes on the gains until you withdraw your money. This tax deferral is even more beneficial if you are in a lower tax bracket when you make a withdrawal – as many expect to be when they retire.

*Annuity contracts contain limitations. Please consult the contract for more details regarding these limitations. Interest rates as stated are effective as of January 24, 2025. interest rates are subject to change at the sole discretion of Puritan Life. **Chart is a hypothetical annuity illustration of tax-deferral and assumes an initial premium of \$100,000 earning a 5.0% compounded annual rate of return for 20 years. Not intended to predict or project performance. Tax deferred value less taxes represents the increase in value due to tax deferral, less taxes at an assumed rate of 28%, with no surrender charge. Precise measurement of tax benefit will depend upon each owner's individual circumstance. This may not reflect rates or terms currently offered by the company.
